

YAHYA

Azure Cloud Engineer | Azure Certified | 3+ Years Experience

+971 50 858 9118 | ykinwork1@gmail.com | linkedin.com/in/ykinwork1 |
Abu Dhabi, UAE

PROFESSIONAL SUMMARY

Azure Cloud Engineer with 3+ years of experience in deploying, governing, and automating enterprise-scale infrastructures. Proven expertise in hybrid-cloud connectivity via **ExpressRoute**, virtual network segmentation, and zero-trust identity management using **Microsoft Entra ID**. Highly proficient in translating manual workflows into resilient **Infrastructure as Code (Azure Bicep)** and leveraging **Azure Monitor** and **KQL** for proactive diagnostics. Dedicated to optimizing Azure costs, enforcing strict compliance via **Azure Policy**, and maintaining **99.9%+ uptime** for critical production services.

TECHNICAL SKILLS

Cloud Ecosystem:	Microsoft Azure (Virtual Machines, App Service, AKS, VNet, Azure SQL, Cosmos DB)
Security & Identity:	Microsoft Entra ID (RBAC, Conditional Access), Azure Firewall, Azure Bastion
Network Security:	FortiGate, Palo Alto NGFW, NSGs, VPN Gateway, Azure Front Door
Automation & IaC:	Azure Bicep, ARM Templates, PowerShell, Azure CLI
Governance & DevOps:	Azure Policy, Azure Arc, Azure DevOps, Git, GitHub Actions
Monitoring & Recovery:	Azure Monitor, Log Analytics (KQL), Application Insights, Site Recovery (ASR)

PROFESSIONAL EXPERIENCE

Associate Cloud Engineer

Minute KSA

Nov 2024 – Dec 2025

Riyadh, Saudi Arabia

- Provisioned and maintained **Azure Virtual Machines** and App Services for DEV/PROD environments, utilizing Availability Sets to ensure high performance and strict workload isolation.
- Enforced comprehensive identity management and zero-trust access using **Microsoft Entra ID**, configuring RBAC and Conditional Access policies for enterprise users.
- Migrated manual provisioning processes to **Azure Bicep** and ARM templates, decreasing deployment time by **73%** and ensuring consistent infrastructure states.
- Designed secure hybrid connectivity by integrating on-premises networks with Azure via **VPN Gateways** and supporting complex **ExpressRoute** routing configurations.
- Developed custom **KQL** queries in Log Analytics to proactively monitor VM performance and diagnostic logs, reducing Mean Time to Detection (MTTD) of application errors by **25%**.
- Built automated **PowerShell** and **Azure Automation** runbooks to enforce non-production shutdown schedules, reducing monthly cloud expenditure by **15%**.
- Enforced organizational compliance and restricted region deployments by implementing mandatory tagging schemas using **Azure Policy**.
- Configured **Azure Site Recovery (ASR)** and Azure Backup for critical production databases, ensuring disaster recovery readiness and maintaining **99.9% uptime**.
- Managed robust network security perimeters by configuring **Network Security Groups (NSGs)**, Azure Firewall, and **Azure Bastion** for secure, agentless administrative access.

Network Infrastructure Engineer

Fabee Technologies

Jun 2022 – Sep 2024

Hyderabad, India

- Performed L1/L2 network troubleshooting using **ServiceNow**, systematically tracking issues and maintaining

strict SLA targets.

- Managed enterprise switching environments with **Cisco Catalyst**, implementing precise VLAN network segmentation and STP optimization.
- Supported core routing protocols (OSPF, BGP) and assisted with enterprise **Cisco Catalyst SD-WAN** deployments.
- Configured **FortiGate NGFWs (60F/100F/200F)**, deploying robust firewall policies, NAT, IPS/IDS, and secure remote VPNs.
- Worked on **Palo Alto NGFWs**, assisting with granular security policies, App-ID traffic control, **SSL decryption**, and advanced threat prevention.
- Performed meticulous firewall rule reviews and policy optimization to enforce least privilege and proactively improve the security posture.
- Implemented comprehensive network monitoring with SNMP, Syslog, and SolarWinds, significantly increasing visibility into bandwidth utilization.
- Administered **Cisco ISE** for **RADIUS-based authentication and authorization**, managing policy sets, dynamic VLAN assignment, and endpoint profiling.

CERTIFICATIONS

- | | |
|---|---------------------------------------|
| • Azure Solutions Architect (AZ-305) | • Azure Administrator (AZ-104) |
| • Cisco Certified (CCNP & CCNA) | • Fortinet NSE 4 |

EDUCATION

B.Tech – CS Engineering
Global Institute

2018 – 2022
Hyderabad, India
