

YAHYA

Cloud Engineer | AWS & Azure Certified | 3+ Years Experience

+971 50 858 9118 | ykinwork1@gmail.com | linkedin.com/in/ykinwork1 | Abu Dhabi, UAE

PROFESSIONAL SUMMARY

Cloud Engineer with 3+ years of experience designing, deploying, and optimizing cloud infrastructure on **AWS and Azure**. Proven track record in cloud migrations, cost optimization (35%+ savings), CI/CD pipeline automation, and maintaining 99.5% uptime for production workloads. Recently delivered AWS infrastructure for a **Riyadh-based ride-hailing platform** serving 8,000+ users. Eager to contribute to UAE's digital transformation initiatives in a challenging Cloud/DevOps role.

TECHNICAL SKILLS

Cloud Platforms:	AWS (EC2, ECS Fargate, S3, RDS, VPC, CloudFront, GuardDuty), Azure (VNETs, ExpressRoute, VPN Gateway, Azure Firewall)
Infrastructure as Code:	Terraform , Ansible , Git-based workflows, Argo CD
Containers & OS:	Docker , Kubernetes (EKS/AKS exposure), Linux (RHEL, Ubuntu), Windows Server
Networking & Security:	Hybrid Cloud Networking, WAF, IAM Governance, Azure Private Link, IPsec VPNs, Palo Alto/FortiGate virtual firewalls
Monitoring & Observability:	AWS CloudWatch , Azure Monitor , ELK Stack , Zabbix, ServiceNow

PROFESSIONAL EXPERIENCE

Cloud Engineer <i>Minute KSA</i>	Nov 2024 – Dec 2025
--	---------------------

- Designed and operated AWS production infrastructure for a ride-hailing platform serving **8,000 active users**, maintaining **99.5% uptime** during peak traffic.
- Led the end-to-end migration from Mobily Cloud to AWS, moving **PostgreSQL**, **Spring Boot**, and **Remix.js** workloads with zero data loss and no downtime.
- Reduced cloud costs by **35%** through Fargate task optimization, S3 Infrequent Access tiering, and deep scoping DynamoDB calls through query for analytics
- Managed infrastructure using **Terraform**, Git-based workflows, and **Argo CD**, implementing blue/green deployments on **Amazon ECS** via **AWS CodeDeploy**.
- Architected high-availability traffic and data layers using **Application Load Balancers**, **CloudFront** (ACM SSL), and **Amazon RDS PostgreSQL** with Multi-AZ failover.
- Strengthened platform security through **IAM policy governance**, **AWS GuardDuty**, **AWS Config**, and secure secrets management using **AWS Secrets Manager**.
- Established observability and operational excellence using **CloudWatch**, **ELK Stack**, **AWS Cost Explorer**, and close collaboration with developers on **Docker** and ECS task definitions.
- Configured **CloudWatch Alarms** and **SNS** notifications for critical infrastructure metrics (CPU, Memory, 5xx errors), enabling proactive incident response and reducing MTTR.

Network Infrastructure Engineer <i>Fabee Technologies</i>	Jun 2022 – Sep 2024
---	---------------------

- Configured and maintained enterprise switching and WLAN using **Cisco Catalyst** (2950/3700/6500/9300/9500), **Cisco Nexus** (NX-OS), and **UniFi** (Security Gateway, Switch, APs) with **VLANs**, **STP**, **EtherChannel**, trunking, and inter-VLAN routing.
- Performed WLAN configuration and troubleshooting, ensuring optimal coverage and resolving connectivity issues for high-density environments.
- Administered **VMware** platforms including **ESXi**, **vCenter**, vSphere clusters, **NSX**, and **vSAN**, handling VM lifecycle management, capacity planning, and micro-segmentation.
- Configured and troubleshooted routing and WAN technologies (**OSPF**, **BGP**, **EIGRP**, **ECMP**, **MPLS**) and **Cisco Catalyst SD-WAN**, onboarding vEdge routers and improving WAN performance by **15%**.
- Managed **FortiGate NGFWs** implementing security policies, NAT, **IPS/IDS**, VDOMs, clustering, **ACLs**, and WLAN security for layered network defense.
- Supported and monitored large-scale SD-WAN deployments across **100+ branch routers**, integrating on-prem SD-WAN edge appliances at HQ and campus sites with centralized policies.

- Orchestrated 24/7 network monitoring using **SolarWinds Orion** and **Azure Monitor**, creating custom dashboard views for bandwidth utilization and device health stats.
- Designed and optimized **Azure networking** including **VNets**, VNet peering, **Virtual WAN**, **ExpressRoute**, VPN Gateway, **Azure Firewall**, NSGs, Network Watcher, and DDoS Protection.
- Integrated hybrid identity using **Microsoft Entra ID** (Azure AD), supporting Microsoft 365 services (Exchange Online, SharePoint, Teams) with secure access synchronization.
- Implemented monitoring and automation using SolarWinds, SNMP, Syslog, FortiAnalyzer, Azure Monitor, Terraform, Ansible, and CI/CD pipelines, supported by clear documentation.

CERTIFICATIONS

- **AWS** Solutions Architect Associate (SAA-C03)
- **Azure** Solutions Architect Expert (AZ-305)
- **Azure** Fundamentals (AZ-900)
- **Cisco** Certified Network Professional (CCNP)
- **Cisco** Certified Network Associate (CCNA)
- **Azure** Administrator Associate (AZ-104)

EDUCATION

B.Tech – Computer Science Engineering
Global Institute of Engineering & Technology

2018 – 2022
Hyderabad, India

WORKSHOPS & HACKATHONS

- **Incubation Hackathon:** Selected to build and pitch a decentralized distributed chat application as part of a competitive technical incubation program.
- **Ethical Hacking Workshop (IIT Hyderabad):** Participated in an advanced workshop covering cybersecurity fundamentals, threat vectors, and practical penetration testing methodologies.

LANGUAGES & ADDITIONAL INFO

- **Visa Status:** UAE Golden/Employment Eligible – Ready to relocate – **Availability:** Immediate Joining
- **Languages:** English (Proficient), Arabic (Basic), Hindi (Native)
